

UBER TAXI

PRESENTATION

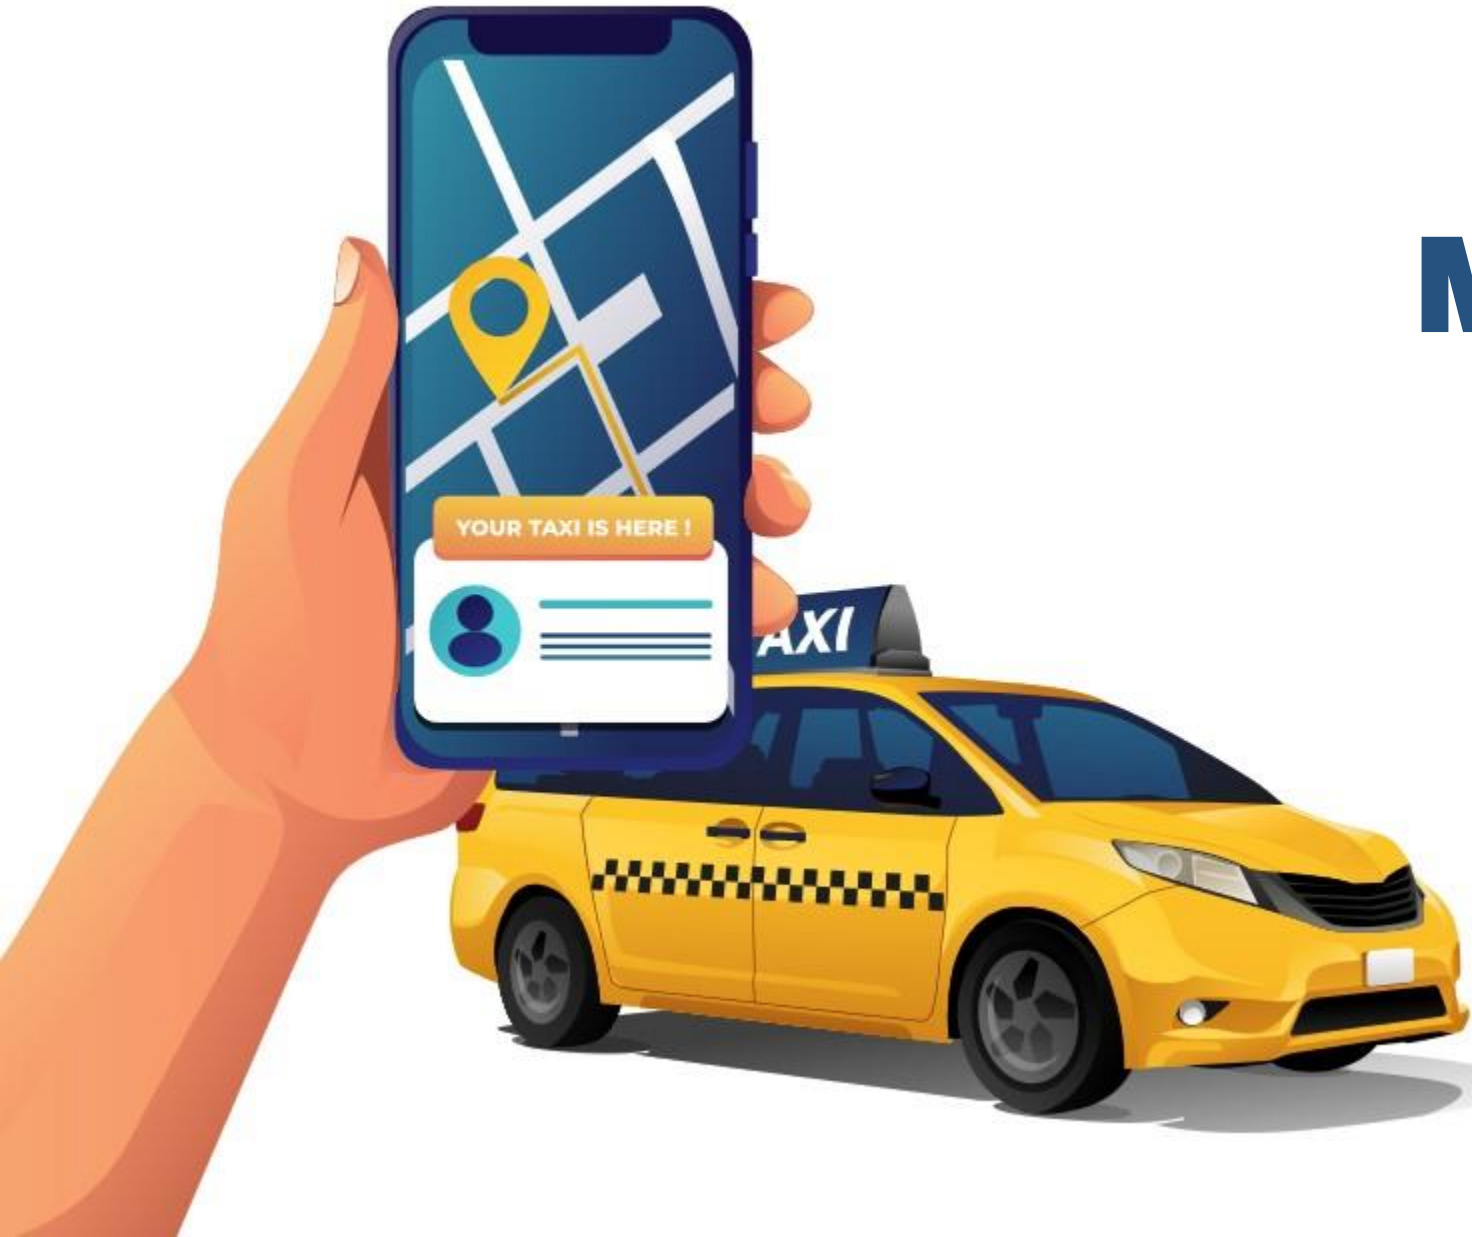

INTRODUCTION

WHAT IS RIDE SHARING

Ride sharing or Ride-hailing is any online or offline service that allows individuals to book and pay for transportation, with a driver using their own vehicle or a leased vehicle to pick them up and take them to their desired destination.

MARKET SIZE

Ride-sharing is anticipated to overtake the conventional taxi in terms of quantity of trips.

As at 2023, market size sits at \$150B with a total of 15 million ride-hailing trips each day, set to increase to 70 million trips by 2028 with a market size of \$300B.

THE PROBLEM

Investing in any sector of the transportation industry involves large capital expenditure and infrastructure overhead, like vehicles, office space and staff salaries; which most small investors do not have.

OUR SOLUTION

- UberTaxi solves this by pooling the resources of various small investors together to create an affordable and scalable point of entry into the transportation industry that benefits both drivers and investors.
- UberTaxi allows individuals to purchase the tokenized version of a real-world asset (fuel / gas) and earn a share of the profit from the utilization of this asset by drivers.

HOW IT WORKS

STEP ONE

Approved drivers arrive at participating depots/stations and get a full tank of fuel/gas on credit.

STEP TWO

Drivers use this full tank of fuel/gas and go on ride-hailing trips throughout the day.

STEP THREE

At the end of the day, drivers pay UberTaxi for the fuel + 5%.

STEP FOUR

UberTaxi pays between 1% - 1.5% to YOU, the investor.

DRIVER ADVANTAGES

**Get fuel now,
pay later, at the
end of the day.**

**No-fee, Vehicle
rental, from our
partners.**

**A full tank of
fuel/gas, free,
once a month.**

INVESTOR ADVANTAGES

Passive daily income.

Low cost entry into a profitable industry

Sustainability, due to the essential nature of the transportation sector.

SUSTAINABILITY

The business model is sustainable, long term. The average uber driver will exhaust a full tank of fuel/gas in a day's worth of driving and make an overall profit of at least 40% on that tank of fuel.

UberTaxi gets paid 5% of that profit and sends between 1% - 1.5% to the investor.

FUEL INVESTMENT PACKS

Sub-compact car

Fuel Cost: \$50

Monthly ROI:
\$22.5

Compact car

Fuel Cost: \$100

Monthly ROI:
\$45

Full-size car

Fuel Cost: \$500

Monthly ROI:
\$225

Mini-Van

Fuel Cost: \$1,000

Monthly ROI:
\$450

Mini-bus

Fuel Cost: \$2,000

Monthly ROI:
\$900

Full-size bus

Fuel Cost: \$5,000

Monthly ROI:
\$2,250

PROFIT OUTLOOK

	PROFIT (\$)						
FUEL	30 days	60 days	90 days	120 days	150 days	180 days	360 days
